### TEAM LEAD | SENIOR NETWORK ENGINEER

*PMP, CCIE-VOICE QUAL, CCNP-VOICE, CIPT, CIPTT, MCSE, CISSP*

Highly qualified and extensively trained IT professional with over 15 years of systems engineering and project lead experience that excels at leading cross-functional teams and coordinating multiple projects simultaneously. Solutions-oriented Senior Engineer with notable success directing a broad range of IT initiatives while participating in planning and implementation of Cisco systems solutions in direct support of targeted objectives. Currently seeking a position that will effectively utilize acquired technical skills and abilities while demonstrating a track record of increasing responsibility in leading projects and coordinating with user departments in system design, product definition, release documentation, and data transmissions.

### CORE COMPETENCIES

- Unique competency in translating business issues into network solutions including opportunity identification, requirements development, delivery, support, and analysis.

- Hands-on experience leading all stages of system analysis efforts, including requirements definition, design, architecture, testing, and support.
- Full lifecycle experience in scoping, designing, developing, deploying, and supporting enterprise scale business applications and business intelligence software.
- Experience at managing cross-functional teams for fast-paced projects as well as complex projects.
- Outstanding leadership abilities; able to coordinate and direct all phases of project-based efforts while managing, motivating, and leading project team initiatives.
